

Oregon Urological Society March 2018 Update

MISSION

To enhance the delivery and quality of urologic care through education and advocacy for patients and health care providers.

Men's Health Awareness Month -June

The Oregon Urological Society met with The Oregonian and advocated for increased awareness of June as Men's Health Awareness Month and for the ZERO Prostate Cancer Run/Walk which has sparked a special insert on June 3rd of The Oregonian.

A series of articles authored by OUS members will be included in the June 3rd special insert concerning Men's Health. Tentative planned articles will address Prostate Cancer, Bladder Cancer, Testicular Cancer and Vasectomies.

The Oregonian is open to hearing what topics our membership identifies as most important to the general public for contribution consideration.

Please forward all topic ideas to Debi Johnson (djmgmt@gmail.com)

Keep an eye out for the ZERO Run/Walk ads running April thru June and the special insert in the Oregonian on Sunday, June 3rd. Hopefully these will be helpful in connecting patients to urologists (*OUS members and their practices*).

We would also be interested in featuring your planned activities around Men's Health Awareness Month we can share with the OUS membership, general public and media relations. Please forward all planned activities to Debi Johnson (djmgmt@gmail.com)
