

## Oregon Urological Society March 2018 Update

### MISSION

*To enhance the delivery and quality of urologic care through education and advocacy for patients and health care providers.*

### OUS President Continues to Meet Urologists Around the State

OUS paid a visit to some of our colleagues in Salem this month, and plans to meet with Central Oregon urologists shortly. It is important to keep Oregon urologists connected with issues that affect Oregon urologists and the patients they serve.

Please call or email us if we've not been able to set up a meeting time with you, and we will be happy to arrange! The OUS president is on a mission to meet as many members as possible in person during his presidency to better understand the needs of our membership and to share best practices.
