

# Oregon Urological Society Summer Update

## MISSION

*To enhance the delivery and quality of urologic care through education and advocacy for patients and health care providers.*

## Membership notes:

Thank you to all members who have paid dues this year! We cannot do this without your support. Reminder notices of outstanding dues are being sent out again this month via email. Please contact Debi Johnson ([djmgmt@gmail.com](mailto:djmgmt@gmail.com)) if you prefer a copy of your invoice snail mailed to you.

We are looking for members statewide who would like to serve on our board or participate on one of our committees— please let Debi Johnson or Rob Skinner know if you can help out. It doesn't matter where you practice in the state. You can participate in person at a meeting or virtually through videoconferencing and teleconferences. Your input is valued.

We want to hear from you! We would be happy to come out to your practice, get you informational materials, and want to get to know you and your practice situation- Please let us know.

Reminder of a few unique ways to get involved with important projects of the OUS:

- 1) Complete the step therapy/fail first practice survey. The couple of minutes you spend are invaluable to our efforts to prepare for the 2019 legislative session to fight this issue.
- 2) Email Debi Johnson ([djmgmt@gmail.com](mailto:djmgmt@gmail.com)) with questions and/or specific challenges concerning prostate cancer you would like to have addressed at the 1<sup>st</sup> annual Oregon Prostate Cancer Focus Group of Stakeholders.
